

Adverbs :

İngilizce'de zarflar (adverbs), genel olarak sıfatların (adjectives) sonuna -ly eki eklenerek oluşturulur.

Adverbs = Adj. + ly

|                     |                            |                                       |
|---------------------|----------------------------|---------------------------------------|
| careful / carefully | He is a careful driver .   | He drives carefully .                 |
| slow / slowly       | I'm a slow reader .        | I read slowly .                       |
| bad / badly         | There was a bad accident . | The cars crashed badly .              |
| correct / correctly | His answers were correct . | He answered the questions correctly . |
| happy / happily     | He is a happy man .        | He talks to people happily .          |

Ancak bazı sıfatların zarf şekilleri farklıdır yada hiç değişmezler:

|             |                                 |                                      |
|-------------|---------------------------------|--------------------------------------|
| good / well | My English is good .            | I can speak English well .           |
| fast / fast | His car is fast .               | He drives fast . (He can run fast .) |
| hard / hard | The quiz was hard .(=difficult) | He works hard .                      |
| long / long | This river is very long .       | He can run long .                    |

Position of Adverbs:

Zarflar yüklemden sonra gelir.

She washes the dishes very slowly and carefully.

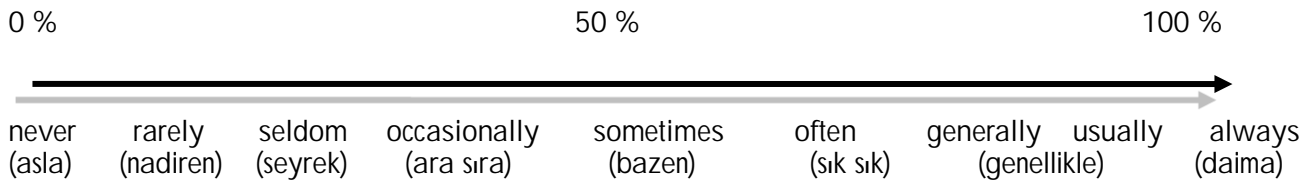

V                      adv              adv

Sıklık belirten zarflar (adverbs of frequency) ise genellikle özne ile yüklem arasında bulunur. Sometimes, cümle başında da sık kullanılır:

They never trust him.

S    adv    V

Adverbs of Frequency:

*Sıra sizde !! Siz de farklı zarf türleriyle örnek cümleler yazın.*
